

## 3-D Model Tiers by Multi-Conveyor

As a custom conveyor manufacturer we understand each project comes with a unique set of requirements. This sometimes extends to additional support documents in the form of 3-D C.A.D. models. Multi-Conveyor offers three tiers\* of models which are available for most conveyors builds. Our standard file format is a STEP file created from a multi-body solid. The tiers are ordered from least to most complex.

### TIER 1

This tier provides accurate infeed, outfeed, and elevations of the conveyor making them useful for layout assemblies.

Includes:

- Basic extruded cross section of conveyor and guiderails.
- Drive and bearings are located, though not fully detailed.
- Specialty features such as chutes, clamps, or pushers.

### TIER 2

This tier provides more detail for external conveyor components. The primary use case for tier 2 is an end user who is looking to interface to their own equipment, or have tight spatial constraints.

Includes:

- Conveyor frames and chain are separate extrusions.
- Guiderail brackets are located.
- Transition pieces are added.

### TIER 3

This tier is for end users requiring a more complete representation of the conveyor. All components, both internal and external, are modeled.

Includes:

- Frames are independently modeled instead of continuous extrusion or sweep.
- Most internal components.
- Hardware

*\*Note: Models provided at each tier are for representation purposes, some features may not be complete.*

# Multi-Conveyor LLC

*Your best...conveyed better.*

Let's get working on your next project.

Since 1989, Multi-Conveyor has been supplying standard and custom conveyors to nearly every industry. Whether your project is \$3,000 or \$3 Million, Multi-Conveyor has solutions. When you work with Multi-Conveyor, you work with a team of experts. A Project Manager is assigned to each individual customer and each job to ensure a quick response. Multi-Conveyor is committed to minimal lead times to meet our customer's required due dates.

**Here's a list of systems and devices that Multi-Conveyor builds on a regular basis:**

- Accumulation Conveyors
- Alpine Accumulation Conveyors
- ARB (Activated Roller Belt™) Conveyors
- Auto-Indexers
- Belt Conveyors: Fabric, Homogenous, Positive Drive
- Bi-Directional & Uni-Directional Accumulation Tables
- Case Packaging / Case Load Conveyors or Stations
- Case Upenders
- Chain Driven Conveyors
- Custom Designs and Specialty Systems
- Electrical Control Panels (UL Listed)
- Electrical Control Systems and Programming
- Friction Belt Conveyors
- Gripper Conveyors: All Configurations
- Hand-Pack Stations
- High-Speed Servo Driven Divert Gate Assemblies
- Hydraulic Devices
- Incline Conveyors
- Incline Product Elevators
- Indexing Conveyors
- Indexing Elevators and Lowerators
- Integrated Roller Belt (ModSort) Conveyors
- Lane Balancers
- Lifts & Lift Gates
- Mat-Top / Modular Plastic Belt Conveyors
- Metal Detection Integration
- Mild Steel Painted Construction
- Modular Conveyor Systems
- MDR - Motor Driven Roller: Stainless, Wash Down)
- Multi-Flex Chain Conveyors
- Package or Roll Upenders
- Package Turning Devices
- Pallet Forming Conveyors for Robotic Palletizers
- Pneumatic Devices: Clamps, Stops, Gates, Retracts, Rails
- Pre-Engineered Standard "Quick Ship" Conveyors
- Product Orientation: Rotate, Turn, Flip
- Product Turners
- Retractable Nose Conveyors
- Right-Angle Pushers and Sweeps
- Rotary Tables: Accumulators / Unscramblers
- Sanitary, Hygienic Design and Construction:
  - FDA Compliant Designs and Construction
  - 3A Dairy Designs and Construction
- Servo and Pneumatic Diverters and Combiners
- Side Grip Elevators and Lowerators
- Single Filing Conveyors
- Slim-Fit™ Small Transfer Conveyor Systems
- Spiral Drum Conveyors & Accumulation
- Stackers
- Stainless Steel Construction
- Starwheels
- Steel Chain Conveyors
- Success Line: Basic, Economical, General Transport
- Table-Top Chain Conveyors
- Upenders: Helix (Twist) and Powered Arm
- Vacuum Conveyors
- Vertical Accumulators
- Wire Belt & Wire Mesh Conveyors

**Take the Multi-Conveyor Challenge**

Even if your satisfied with your existing conveyor supplier, give us a shot. Chances are we've already conceived, designed, engineered and built a system just like the one you're looking for right now ... or, made one pretty damn close.
